

The following tables contain the standard charges for new dwellings, small non- domestic buildings and extensions or alterations to single buildings.

The charges have been established at a level to cover the cost of the Building Regulation related service in respect of commonly occurring categories of work.

The level of service allowed for is considered to meet the recommendations of the Building Control Performance Standard document and exceed that offered by other Building Control Bodies. You can therefore be confident that allowance has been made for an adequate number of inspections to enable us to ensure a reasonable level of compliance is achieved and provide you with a value for money service.

These standard charges have been set on the basis that the building work does not consist of, or include, innovative or high risk construction techniques and once commenced will be completed within 24 months. Furthermore, the assumption is made that the person or contractor carrying out the work is competent to do so.

If the above are found not to be the case, then supplementary charges may need to be applied to cover our additional input.

Where the proposed works fall outside the categories shown, generally for larger and/or more complex schemes, the charge will be individually determined.

Where the control of the works reverts back to the Local Authority due to the inability of an Approved Inspector to resolve a contravention individual assessment will again apply.

Where the above is applicable, you should contact the Building Control section on the number/addresses below to discuss the information required.

If the works are solely for people with disabilities or the provision of accommodation for a carer where 24 hour care is required they will be exempt from the charges. A letter will be required from a Doctor or Social Services to justify such a claim.

The inspection charge related to a full plans application will become due following the first inspection by our surveyor. This charge is the applicants responsibility unless stated otherwise.

Further details of the formulation of charges are contained in the Building (Local Authority Charges) Regulations 2010.

If you have any problems when filling in any of the forms, require any further information, or wish to apply for an individually determined charge, please either telephone 01268 882290 or email igrimwade@castlepoint.gov.uk or write to us at Regeneration and Homes, Castle Point Borough Council, Council Offices, Kiln Road, Thundersley, Benfleet, Essex. SS7 1TF

TABLE A - NEW DWELLINGS
Dwelling-houses and Flats not exceeding 300m²

Please note that the Charges marked with an * have been reduced to reflect where controlled electrical installations are being carried out, tested and certified by a registered Part P electrician. If these reductions are claimed and a self certifying electrician is not subsequently employed, the applicant will be invoiced for supplementary charges equivalent to the discount (see D14 below).

| Code S1 | Houses or Bungalows less than 4 storeys | | Plan Charge | Inspection Charge * | Building Notice Charge* | Regularisation Charge* |
