Attachments: ufm16_Consultee_Letter_-_21_days.pdf

Hi

Having looked through the planning application and in particular the plans, there is a significant amount of multi-functional open space where the control of litter and other waste will need to be managed correctly and of course in the development areas.

I could not see in the documents any mention of litter / dog bins, apologies if I have missed it, but these will need to be considered as part of the site if it is approved and developed. I am happy to offer guidance regarding the siting of bins and other street cleansing if it is appropriate.

Kind Regards

Stuart
