South Essex Councils (SEC) is working to bring investment in infrastructure to support accelerated housing delivery to support the economy and meet existing housing needs. Over the last 12 months a detailed pipeline of housing schemes has been developed with a specific focus on schemes that are stalled because of issues of viability.

SEC has forged a trailblazing strategic place-based partnership with Homes England. This is just one of two such partnerships in the country.

SEC is focusing on:

- Unblocking stalled schemes
- Creating opportunities for small and medium sized builders in the region
- Working in partnership with housing associations to accelerate the delivery of affordable homes.
