

Note on the Conclusions of Castle Point Plan Board Workshop 24th January 2023

Discussion – questions to pose for the Issues consultation

Agreed conclusions:

- Beginning of ongoing engagement
- Open questions
- A short set of questions to begin the conversation – can ask more detail as we progress with the plan
- Focus on communities
 - What do people value about their community?
 - What do people dislike about their community?
 - What needs protecting?
 - What needs improving?
 - Should ask about anything else they'd like to tell us about their community.
 - Should ask if they'd like to continue to be involved in engagement.
- Need to think about the 'approach' in terms of getting people to engage.
- Need to provide guidance for Members for encouraging engagement when out and about.

Next Steps:

Officers will use the outcomes of the discussion to refine the questions and organise the engagement.
